

## Part 70 Compliance Certification Report due April 1<sup>st</sup>

Your facility is currently operating under a Part 70 Operating Permit issued by the Air and Radiation Management Administration (ARMA). This permit requires an annual Compliance Certification due by April 1 each year. To complete the compliance certification, both an ARMA form and a federal Compliance Certification form are to be used. The ARMA form is to be used for certifying plant-wide conditions (Section III of your Part 70 Permit) and the federal form is to be used for certifying plant-specific conditions (Section IV of your Part 70 Permit).

Regarding the federal form, please note that sections A and B of the certification form are only required to be completed once; however, sections C and D must be completed for each permit condition of each emission unit. Deviations from permit conditions must be reported on form E. Please make as many copies of form C, D, and E as necessary.

The federal form and instructions are located at:
